

8-TRACK

AUDIO CONTROL CONSOLE

THE ACC-1608 BY ELECTRODYNE

- Specifically for 8-track recording
- Optional switching available for 12, 16, and 24-track operation
- Integrated-circuit amplifiers in plug-in modules used exclusively
- 16 mike or line inputs, wired for 20
- 6-frequency equalization with echo send and cue on each input
- Simultaneously mixes 8, 2, and 1, or 4, 2, and 1— independent of each other
- 2 stereo pan pots
- Complete switching and level controls for both booth and studio monitors
- Illuminated, color-coded push-button channel and cue switches
- Human engineered with exclusive WristRest design — foam-padded front edge minimizes mixer fatigue

Need options? You name it, we build it in. Guaranteed glitch-free. And at less than the cost of do-it-yourself modifications.
